

littlebig desk

The LittleBig Desk is a small desk with two panels that can extend the desk surface when more space is needed. An aluminum channel along the back edge of the desk can be used to hold one or both of the panel upright to be used as a bulletin board (blue upright panel) or dry erase board on the reverse side. The desk comes apart in three big pieces (2 leg assemblies and the top with panels underneath), and is held together firmly with 4 screws. It can be easily assembled by one person and can ship flat.

Materials: solid birch, cork, melamine, aluminum, fasteners.
